**Subject:** Re: PRELIMINARY DRAFT PFAS MANAGEMENT PLAN

Good morning Peter.

Thank you again for the briefing.

My staff have assembled their comments as of this morning in response to your request of Friday, last week.

I have requested that the R2 staff recommendations be submitted to me for review before they are transmitted to you.

Please be advised that I am on the road much of the day. With that said, the transmission to you may not take place today. I anticipate going through the draft tomorrow morning and sending it to you during the day.

Please let me know if you have any concerns.

Best wishes.

Sincerely,  
Pete

Pete Lopez

All, thanks again for your time on today's meeting agenda to discuss PFAS. The current preliminary draft PFAS management plan is attached, and please note that I have requested comments from your staff by COB on Thursday of this week. The draft schedule for development of the management plan is included below.

**Subject:** Preliminary draft PFAS management plan

Please see attached to this message a preliminary draft of the PFAS management plan, which has been developed in consultation with EPA's PFAS coordinating committee, based on input received during the national PFAS leadership summit, the community engagement sessions and roundtables, the Tribal engagement in R10 and in consideration of the 118,000 comments submitted to EPA's docket. We welcome input you and your program staff can provide to strengthen this draft. You will also note that we also need to fill in additional details for Appendix A, which lists highlighted PFAS-related actions across the Agency. In addition to providing your feedback on the content and description of activities in the body of the document, we would be most grateful if you and your staff would also the list of activities in Appendix A, and add noteworthy projects from your AA-ship or Region to ensure this list reflects the important PFAS-related work going on across the Agency. In particular, we would like to include at least one or two key actions from each EPA Region.

The work described in this preliminary draft reflects a tremendous amount of outstanding work that is taking place across the Agency, and in partnership with the other federal agencies, the states and tribes, and local communities. While the short descriptions of activities cannot do justice to the scope and importance of these efforts, the goal is to ensure that the draft management plan conveys the strategic choices the Agency is making to balance the need for near-term action with the need to be deliberate in carefully considering the appropriate next steps to protect human health and the environment. Thanks again to all for your excellent work and collaboration on this effort!

**Please provide your office/region's consolidated comments to Hannah Holsinger with a cc to me no later than Thursday, October 18.** For your reference, I have also attached a schedule that outlines next steps for development of the PFAS management plan.

## **PFAS National Management Plan: Draft Timeline**

Date	Activity
Week of October 1 <sup>st</sup>	Finalize management plan outline Draft preliminary management Plan Early engagement with program offices
Week of October 8 <sup>th</sup>	Draft management plan Begin 1-Week EPA program and regional input/review
